

VACANCY

Job Title: Quality Control Inspector

Hours: 42 Hours/Week – Shifts (Day/Night/Weekend)

Duration: Temporary

Job Description

Quality Control Inspector required, experience preferable in a Manufacturing and high volume, production environment. To provide a resource to the Quality Control/Inspection department so as to achieve the timely approval or rejection of material on a 24/7 basis and other agreed QC/Inspection department objectives. The successful candidate will be involved in finished goods inspection and proficient in the use of a variety of measuring equipment, and must be PC literate, customer focused and able to organise and prioritise workloads. Essential skills to include good communication, accuracy and attention to detail, confident liaising with staff at all levels and a good team player.

Will be fully trained with company products and further training provided for QC Testing workloads.
